**PROTECTIVE ACTIONS**

**I. CLOSING OF SCHOOL**

This would include closing the school for any number of reasons prior to school ever opening. Parents should listen to local radio stations (WJRZ, WOBN) and watch the local TV channel when weather conditions are poor. Our Realtime Global Connect calling system will be utilized also.

**II. EARLY EMERGENCY CLOSING**

Local radio stations and the local TV channel will announce early emergency closings, and the Realtime Global Connect calling system will be utilized to contact parents. Parents should make previous arrangements for the care of their children. In the case of emergency early closings, please make sure your child knows what to do and where to go in this situation.

**III. SHELTERING**

This situation will be utilized if it would be safer for the pupils to remain in the building rather than venture to the outside. The Realtime Global Connect calling system will be utilized.

**IV. EVACUATION**

This action will be utilized if it would be in the best interest to leave the school site and not return home. The Realtime Global calling system will be utilized. A notice explaining date, time, and place of evacuation will be posted on the front door of each school. Please **do not call or come to school** – this will only hamper our evacuation plans.
