Re: Statement of Assurance of Lead in Drinking Water Testing

To Whom It May Concern:

Ocean Township School District has completed the lead testing of drinking water outlets within all school facilities in compliance with the requirements of N.J.A.C. 6A:26-12.4. Notification of elevated test results, actions taken to remove outlets from service, and remedial measures taken have been provided to all staff, faculty, and parents/guardians of school children. Where necessary, alternate sources of drinking water have been made available.

Copies of laboratory analytical reports, plumbing profiles, water outlet inventories, and all other required documentation will be maintained on site. Ocean Township School District will continue to comply with the requirements of N.J.A.C. 6A:26-12.4, including testing drinking water outlets for lead every six (6) years.

Sincerely,

Jeffrey von Schmidt
Facilities Manager
